

# December

## Family Traditions

Your child will present a mini report on one of your family's traditions. The presentation should be at least 2 minutes long, but no more than 5 minutes. Please help your child prepare for the presentation in the following manner.

1. Help your child choose a family tradition. (It can be a holiday or non-holiday tradition).
2. Talk to your child about why this tradition is important and how it originated.
3. Help your child describe your tradition in sequential order. Your child should describe each step in detail.
4. Practice what students will be say at home. Focus on speaking clearly and loud enough for the audience to hear you.

Students may bring in props or pictures to support their presentation.
